EDUCATION

HERALD COLLEGE KATHMANDU
Bachelor's degree, Computer Science
2021-2024

BANEPA POLYTECHNIC INSTITUTE
Diploma, Information Technology
2015-2018

SKILLS

- Presentations
- Jenkins, Splunk, Grafana
- HTML/CSS/JS
- Microsoft Office 365
- Linux, AWS
- Virtualization
- Networking
- Web Hosting
- Python (Programming Language)
- Django
- Data Science
- Scrum
- GIT, Bit Bucket, GIT Lab, Slack

COURSES/Certification

- Jira Fundamentals Badge - Atlassian 262498109
- Python Django – Simplilearn KoJjQz4nuFb
- AWS Beginners Course – Edureka PSJCFZGCR
- Diploma in Amazon Web Services - Alison 1770-24193867
- Linux Network Administrator - Alison 3517-24193867
- Computer Networking - Local Area Networks and the OSI Model - Alison 1442-24193867
- Critical Thinking for Better Judgment and Decision-Making Abjw2an4lGo70lzhlm-QXo9CpN-0
- Project Management Foundations: Teams AcxQabYVnL4XGeGfbi4cUPqHV4-
- Scrum Development - Alison 1956-24193867

Internship

World IT Explore Pvt. Ltd.
Itahari
January 2019- June2019
Title: Computer Software System

SUMMARY

A computer science student pursuing a BSc Hons. Degree with a strong educational background, having experience in network deployment, domain creation, and user log management. I worked as a Project Manager for a Human Resources Management System project and have experience in designing and prototyping. With an AWS Diploma, I am well-equipped to design, deploy, and manage scalable and reliable applications on the AWS platform. Having a skillset in configuring and securing cloud environments and committed to staying updated with the latest advancements in cloud technology. I am excited about the opportunities and look forward to contributing my skills and knowledge in the field of computer science or any relevant opportunities.

EXPERIENCE

CLOUD ASSISTANT
March 2022-Present

- Worked closely with system administrators as a cloud assistant, providing crucial support and contributing to the smooth operation of the cloud infrastructure.
- Developing weekly targets to ensure that work missions and goals are consistently met.
- Played a pivotal role in supporting various DevOps aspects, including GIT, AWS, Bitbucket, Terraform, and JIRA.
- Leveraging my expertise in these areas, I contribute to the success of DevOps practices within the organization.
- Actively engaging with JIRA tickets, performing tasks such as app building, creating new certifications for applications, renewing existing certificates, and adding clusters to apps for final deployment.
- Ensuring that the software development and deployment processes run smoothly and efficiently. Collaborated with recruitment and HR professionals to achieve hiring goals.
- Inspect server and application logs, ensuring that any issues or discrepancies are promptly addressed contributing to the overall stability, performance, and security of the cloud infrastructure.
- Supporting the system administrators, fulfilling my responsibilities, and maintaining a robust and efficient cloud infrastructure.
